

Use Truepic to Simplify Your Site Inspection

Faster Verification Process

Site inspections are a key component of the First Advantage customer credentialing process, and you can complete it within minutes using the free Vision Camera app from Truepic. Truepic is the leading photo and video verification platform, and the mobile app streamlines and simplifies the site inspection by allowing you to digitally complete your inspection using your iOS or Android smart phone. Using Truepic, you can accelerate the credentialing process, moving your business toward a faster approval and implementation.

Get Started with Secure, User-friendly Technology

All we need is your mobile phone number to get started. You will then receive a text message with instructions and a unique link to download the Truepic Vision Camera app from the Google Play Store or Apple App Store. The app does not save directly to your device, and it cannot access existing photos on your device. Instead, the Vision Camera app links photos that are taken through the app directly to First Advantage's Truepic dashboard where a credentialing analyst will review the completed inspection report.

Customer credentialing helps with:

- Compliance with the Fair Credit Reporting Act and other state laws and contractual obligations
- Ensuring our customers are legitimate business entities
- Protecting consumer data

Helpful Tips & Info

- Conduct the site inspection at your place of business where you will physically order and receive background reports. The app features GPS technology to reflect your business location.
- Trouble with Truepic?
 - Call or email your credentialing analyst
 - Access Truepic's [Getting Started Guide](#)
 - Call Truepic at (619) 512-9759
 - Email Truepic at support@truepic.com
- The questions asked do not focus on any company confidential information. Their purpose is to confirm your company is a legitimate business. The questions cannot be disclosed prior to the inspection.
- Answers are provided through photo, video, multiple choice, and yes/no responses.
- Texts from Truepic will always come from 1-469-620-8647.
- If you're unable to complete a task, reach out to your credentialing analyst.
